OBJECTIVE

Looking for a challenging role in a reputable organization to utilize my technical, database, and management skills for the growth of the organization as well as to enhance my knowledge about new and emerging trends in the IT sector.

SKILLS & ABILITIES

Programming Languages – Python (Core & Advanced), Java

Frontend Technologies – HTML5, CSS

Database & Frameworks – SQL, Flask

PROJECTS

Customer Review Analysis on a Product using Python   **Jul 20-Sep 20**

The main aim of this project is to know the sentiments of the customer on a particular product in E-commerce sites. Here, I used flipkart site to scrape the data for a product and building sentiments over it.

Tools Used : Python, Flask, HTML

Weather Analysis and prediction using Flask   **Oct 20-Dec 20**

Built this web application to forecast the weather based on user's current location. Used Weather API to find the weather of a particular location based o user's input.

Tools Used : Python, Flask, API, HTML

Design of Product Using CNC Programming

EDUCATION

B. Tech (Mechanical Engineering), Jalandhar, Lovely Professional University   **2015-2019**

Intermediate, Vijayawada, NRI junior college   **2013-2015**
